submissions:

25 November 2021

Message from the Guest Editor

Dear Colleagues,

The 9th International Conference on Smart Energy Grid Engineering (SEGE 2021) (<http://www.ieee-sege.com/>) will be held at Ontario Tech University, Oshawa, Canada, 11–13 August 2021. SEGE provides an opportunity to discuss the various engineering challenges related to smart energy grid design and operation. It provides a forum for researchers from academia and professionals from the industry, as well as government regulators, to discuss challenges and exchange knowledge and best practices concerning smart energy grids.

Authors of papers related to smart energy grid engineering presented at the conferences are invited to submit extended versions of their work to the Special Issue for publication.

Prof. Hossam A. Gaber

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the Science Citation Index Expanded (Web of Science), Ei Compendex, Scopus and other databases.

CiteScore (2019 Scopus data): 3.8; ranked 19/101 (Q2) in "Control and Optimization", 62/216 (Q2) in "Energy Engineering and Power Technology", 208/670 (Q2) in "Electrical and Electronic Engineering", 33/98 (Q2) in "Fuel Technology", 9/23 (Q2) in "Energy (miscellaneous)", and 72/179 (Q2) in "Renewable Energy, Sustainability and the Environment".
